**President’s Message**

I’m humbled by the opportunity to assume the presidency for the organization. I grew up a block away from the fairgrounds, worked here as a kid, and have always had a close relationship and interest in the fair. As we look back, last year was another good year for the fair – great attendance, quality entertainment, great exhibitor participation, and excellent involvement by all—volunteers, staff, and members of our society. Thank you all.

This year, our 170th anniversary, we face new challenges. We have many infrastructure projects, including barn repairs, drainage replacement areas, finishing the train station and reconstructing the north gate to improve traffic flow. We will be rebuilding the former Foster’s restaurant to accommodate a new proprietor with an attractive new menu. We will also have a new building replacing our seating tent at the food mall. Other challenges include state and federal mandates, security, and weather.

Despite the change and progress over time, the Dutchess County Fair strives to maintain its agricultural heritage through the same quality and standards as set forth by its founders, a tradition we are proud to continue. I look forward to working with all of you in our efforts to make this another successful year.

Lewis Ruge, President

---

**Warren M. Wigsten March 1927- March 2015**

In 1960 Warren became a member of DCAS. He was appointed as a director in 1965, resigned as a director in November 2014 but still maintained his membership as an honorary director until his passing.

Warren was active in Cornell Cooperative extension 4H as a member and a leader. Warren served as a dairy cattle show judge in both the US and abroad. Warren and his wife Betty were the driving force in implementing the Harvest Demonstration Kitchen located in Building E at the fairgrounds. Warren was an instrumental part of the Pleasant Valley Train Station Restoration project. He was able to see the train station relocated to the fairgrounds where it will be put on display for people to experience.

Warren was a valued member of our “Fair Family” his years of service as a member and director of the Ag Society and his involvement with the fairgrounds will always be appreciated. He will surely be missed.

---

**Joy Richwine September 1960- August 2014**

For over ten years Joy was the chair person of the Hobbies and Crafts department in Building E for the Dutchess County Fair. Joy will be remembered for her kindness and dedication not, only to her department, but to all that knew her.
Jim Boice August 1935- April 2015

Jim became involved at the Dutchess County Fair in 1957. In 1968 he began to show and demonstrate his collection of antique machinery and continued to do so each year up until he passed away. He became a member of the Dutchess County Agricultural society in 1994. Jim’s presence in the Century Museum village will be missed.

Alice Pearce Doyle 1943-2015

Alice was a perennial fixture at the Dutchess County Fair as a volunteer in the Needlework and Stitchery Department. No matter how busy or hectic entry day, judging day, set-up day or Fair Week was she handled it with calm, ease and humor. During Fair Week, Alice could often be heard proudly speaking to a visitor about our department or ever the teacher, encouraging a child to make something to submit to our department. She was an accomplished needle artist and a member of the Skylkill Chapter of the Embroiderers Guild of America and the CQ Needlework Club. Alice also won ribbons for her quilts and needlework at the Dutchess County Fair. She was a uniquely centered person in today’s hectic world. Her volunteer work made the Needlework & Stitchery Department at the Dutchess County Fair better and we will sadly miss her contributions, good cheer and laughter.

Eileen Travis, needlework & stitchery chairperson

The 51st Annual
Dutchess County Fair’s
Talent Search

No Auditions

The Dutchess County Agricultural Society welcomes back Raphael’s Talent Search for its 50th year. A tradition at the Fair, the Talent Search is not only an outlet to showcase local talent but a springboard for that talent to the New York State Fair Talent Search in Syracuse, New York.

The Talent Search was created in 1963 by Raphael Mark. It was his dream to give amateur performers of all ages a venue to perform. The emphasis, then and now, is for everyone involved to have a good time performing in a comfortable but always professional atmosphere.

Following Raphael’s death in 1986, his wife Fran Mark continued the tradition until her death in 2002. The Mark family continues the tradition today.

Participants compete Tuesday through Friday during the Fair for a chance to be asked back for the finals on Saturday. At the end of the competition Saturday, the top three acts in both junior (12 years old and under) and senior (13 and up) categories receive a cash prize and corresponding 1st, 2nd or 3rd place ribbon. Participant ribbons are awarded to all who perform. A panel of professional judges renders the decision on the winners of the competition. The top 25 finalists in both the junior and senior categories are eligible to compete in the New York State Fair Talent Search held in Syracuse, New York. Applications for the State Fair will be available on the day of the finals. Any questions regarding the NYS Fair Talent Search may be directed to Jason Mark.

All types of talent are encouraged to compete. Talent in the past has included musicians, dancers, vocalists, magicians (no pyrotechnics allowed), comedians, jugglers and dramatic readings. There are no age limits and no auditions. The categories are compiled after the acts are sorted and include junior/senior and solo/group distinctions. All acts must be strictly amateur.

The Talent Search provides a stage, piano, dressing tents, a sound/light system, and a well seasoned staff including the Mark family to keep the show running smoothly.

There is an ENTRY FEE charged per act.

Solo (one person): $5.00 per act
Group (2+ people): $10.00 per act

Please make checks payable to DCAS, Inc. and mail with the completed application

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the “IAFE National Code of Show Ring Ethics,” fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demeán the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal’s performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal’s performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.

6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.

7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.

8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.

9. The application of this code of ethics provides for absolute responsibility for an animal’s condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.

10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person for show management to enter the animal in a livestock show for violation of this Code of Show Ring Ethics. Any other rules of competition of the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expositions and any special notices to members.

11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

FairAnimalHealthRequirements_2014.pdf

- All cattle and swine must be identified by USDA approved official ear tag.
- Rabies vaccination lower age limit is 4 months.
- Category 2 veterinary accreditation is now required.
- GoPass is now available for horse movements.

PLEASE REVIEW RELEVANT SECTIONS BELOW.

GENERAL PROHIBITIONS AND REQUIREMENTS
- No person shall bring or have present an animal on the fairgrounds during a fair which is not qualified under NYS regulations.
- No person shall present an interstate or intrastate certificate of veterinary inspection that has been altered by anyone other than the issuing veterinarian or an authorized agent.
- Animals demonstrating clinical signs or other evidence of infectious, contagious or communicable diseases shall not be allowed on the fairgrounds during a fair.
- Representatives of the Commissioner may deny admission to or require removal from the fair premises, or require the segregation of any animal showing signs of or exposed to any infectious, contagious or communicable disease.

Note: The fair board of directors has the authority to reject unworthy or unsightly exhibits for reasons other than infectious, contagious or communicable disease (Part 350.10). The state veterinarian or animal health inspector will bring questionable exhibits to the attention of the fair board.

- All animals presented that originate from a location other than New York shall meet all New York State importation regulations appropriate to the species in addition to the fair animal health requirements.
CERTIFICATES OF VETERINARY INSPECTION (CVI)
• Cattle, sheep, goats, swine, llamas, deer, monkeys, misc.
  ruminants, camels and elephants require a valid CVI to enter
  the fairgrounds.
• The CVI must be issued by a Category 2 accredited veteri-
  narian.
• All animals must be officially identified. All manmade ID
  must be recorded. Refer to Animal Identification section below for
  more information.
• Only one species is allowed per certificate.
• The type and duration of certificate required depends on the
  origin of the livestock.

NEW YORK ORIGIN LIVESTOCK
• A valid intrastate CVI (AI 61) is required.
• Each animal must be individually identified on the CVI.
• The CVI must be issued on or after May 1 of the current year.

OUT OF STATE ORIGIN LIVESTOCK
• All animals entering New York State must satisfy import
  health and test requirements for that species and be
  accompanied by a valid interstate CVI.
• The interstate CVI is valid for 30 days from the date of CVI
  inspection. During the fair season (July 1 through Labor
  Day) valid CVI’s can be used multiple times for entrance into
  fairs. The initial entrance into a fair must be within 30 days
  of the date of CVI inspection. In order for the CVI to be used
  for a later fair, it must be dated and initialed by a state
  official noting the location of the initial fair. A change in health
  status or eligibility of an animal necessitates the generation
  of a new CVI.
• Questions regarding import requirements should be
  directed to the Division of Animal Industry at 518-457-3971,
  www.agriculture.ny.gov/ai/import_export.html

ANIMAL IDENTIFICATION
• Cattle, sheep, goats, swine and deer/elk must be identified
  by USDA approved official identification. Cattle, swine and
  deer/elk must be identified by official ear tag or microchip approved by
  the Department of Agriculture and Markets. Misc. ruminants
  must be identified by Department of Agriculture and Markets approved
  identification.
• Note: A complete written description is sufficient identifica-
  tion for horses entering New York accompanied by a CVI. The
  description must match the EIA test record. Horse sketches and descriptions should reference color pattern,
  hair whorls, chestnuts, scars and other markings as necessary to
  uniquely identify the horse. Tattoos and microchips if any
  should be included. “Bay no markings” is not an acceptable
  description for a CVI or EIA test record.

RABIES VACCINATION
• Rabies vaccination is required for all species for which there
  is a USDA licensed vaccine available (cattle, horses, sheep,
  dog, cat, ferret) and that are 4 months of age or older on the
  date of admission to the fair.
• Vaccine must have been administered within the past 12
  months. The exception is Imrab LA vaccine used in sheep
  which protects them for 3 years after the second annual
  vaccination (consult your veterinarian).
• The rabies vaccination requirement must be met on the day
  admission even if the animal was previously admitted to a
  fair when to young to be vaccinated.
• Note: Individual fairs can require animals for which there is
  no approved rabies vaccine to be vaccinated for rabies. The
  requirements outlined above would apply. The fair is responsi-
  ble for notifying exhibitors. The New York State Fair
  requires rabies vaccination for all livestock species entering
  the grounds as well as all other mammalian species that
  have direct contact with the public.

ACCEPTABLE PROOF OF RABIES VACCINATION
• Acceptable proof of rabies vaccination must include a
  signed written statement from the attending veterinarian
  or a valid certificate of veterinary inspection that has the
  vaccination listed and is signed by the Category 2 accredited
  veterinarian.
• Acceptable proof of vaccination must include the name
  of the product used, the date of administration and the
  duration of immunity if longer than one year.
  If the statement of rabies vaccination is included on an EIA
  test record, it must be signed separately in addition to the
  required EIA test record signature.
• NOTE: Rabies titers are not acceptable proof of rabies
  protection and cannot be used to meet entry requirements.
  Acceptable proof of vaccination for dogs is a valid
  vaccination certificate or a copy of the dog license that
  contains the rabies vaccination information.

BVD-PI TESTING
• All cattle, llamas and alpacas exhibited at NY county fairs
  or the State Fair must be negative to an approved test
  appropriate to detect Bovine Viral Diarrhea persistent
  infection (BVD-PI). This is a once in a lifetime test that must
  be reported on the required certificate of veterinary
  inspection. The issuing veterinarian is responsible for
  verifying the validity of the test, the identification of the animal
  and recording the test date on the CVI. If a previous test is
  not verifiable the test must be repeated Cattle Testing:
• Currently acceptable BVD tests for cattle less than 61 days
  old:
  • Skin notch Antigen Capture ELISA (ACE) or
    Immunohistochemistry (IHC)
  • Whole blood virus isolation
  • Whole blood PCR
• Currently acceptable BVD tests for cattle 61 days of age and
  older:
  • Skin notch Antigen Capture ELISA (ACE) or
    Immunohistochemistry (IHC)
  • Serum or milk Antigen Capture ELISA (ACE)
  • Whole blood virus isolation
  • Whole blood, serum or plasma PCR
• Note: The Animal Health Diagnostic Center at Cornell
  University can conduct testing on pools of up to 10 cattle.

Llama, Alpaca, Guanaco, Vicuna Testing:
• Currently acceptable BVD tests;
  • PCR
  • Whole blood virus isolation
• Note: The Animal Health Diagnostic Center at Cornell
  University can pool llama, etc. samples for PCR testing as
  follows: Animals less than 61 days of age can be tested in
  pools of 2 animals, whole blood only. Animals 61 days of age
  and older can be tested in pools of 5 animals using whole
  blood, serum or plasma.

CLEANING AND DISINFECTION
• All buildings on the fairgrounds housing animals must be
  cleaned and disinfected prior to the opening of the fair and
  between groups of animals when housing is rotated
  (Section 50.2 of Agriculture and Market regulations).
KIDDING AND LAMBING
• Due to a concern about the spread of scrapie, any sheep or goats that are exhibited at a county fair that have recently given birth or have a vaginal discharge, will be ordered removed along with their offspring.
• The causative agent for scrapie may be present in high concentration in fluids associated with birth and the risk of transmission is considered highest at that time.

COMMINGLING OF SHEEP AND CATTLE
• Due to the potential spread of malignant catarrhal fever from sheep to cattle, it is recommended that cattle be kept separate from sheep.

COMMINGLING OF SWINE AND POULTRY
• Due to the potential spread of influenza viruses, it is recommended that swine and poultry be housed in separate locations.

ISOLATION ON RETURNING HOME
• The owner or custodian shall keep show animals biologically separate from the herd or flock for a period of at least two weeks after returning to the premises of origin.

INDIVIDUAL SPECIES REQUIREMENTS

ENFORCEMENT OF LIVESTOCK HEALTH REQUIREMENTS AT NYS COUNTY FAIRS

Basis of Responsibility
Part 350.11 of New York State Department of Agriculture and Markets regulations: “Each fair or exposition which receives money from the State pursuant to article 24 of the Agriculture and Markets Law shall comply with and enforce the livestock requirements set forth in part 351 of this chapter.” The livestock health requirements are outlined in the “Animal Health Requirement Booklet” available from the Division of Animal Industry at 518-457-3502.

Responsibilities of Fair Officials
County fair officials are responsible for reviewing all certificates of veterinary inspection (CVI) for compliance with state regulations and for verifying individual identification of exhibited animals listed on the CVI. A CVI is required for cattle, sheep, goats, swine, deer, llamas, monkeys, elephants, camels and miscellaneous ruminants. The county fair is responsible for rejecting any animal that does not meet the documentation requirements or is not properly identified. Satisfactory CVI’s must be signed or stamped with the official stamp supplies by the Department.

County fair officials are responsible for reviewing EIA and rabies vaccination documentation for all horses entering the fairgrounds and for rejecting any horse not meeting the requirements. These requirements apply to all horse exhibitions including Sire Stakes horses and horse pulls.

County fair officials must make sure that poultry meet all requirements.

The Fair Livestock Inspection Report (A1-67, pg 11) must be completed for all animals required to be inspected by fair officials. A separate report can be submitted for each exhibit or a summary report can be submitted at the discretion of the fair official. This report must be submitted to DAI staff within 10 days of the end of the fair.

Animals in contract exhibitions such as petting zoos, circuses, rodeos, team penning and racing pigs must meet all requirements. All animal health concerns must be immediately brought to the attention of the state veterinarian or veterinary technician assigned to the fair.

Certificate of Veterinary Inspection – Intrastate Movements
Species of animals requiring a CVI originating from NY must be accompanied by the AI-61, “Exhibition Certificate of Veterinary Inspection for Livestock”, issued on or after May 1 of the current year issued. This form cannot be used for interstate movements. This form must be completed by an accredited veterinarian. (Accreditation is an additional certification beyond licensing that allows the veterinarian to issue official certificates and perform official tests and vaccinations. Most large animal veterinarians are accredited. If you have a question on the status of a veterinarian, call 518-457-3502 for verification). The AI-61 form was revised for the 2001 fair season. Previous versions of the form are acceptable while supplies last.

In order for the certificate of veterinary inspection to be valid, all required information must be entered. It is the responsibility of the issuing veterinarian to make sure the form is completed properly. If required information is lacking, it is acceptable for the issuing veterinarian to correct the certificate. Corrections or additions must be initialed by the veterinarian. Note: All vaccine requirements must be met during the duration of the fair. CVI’s with vaccinations out of date at the time of the fair are invalid and the animals will be rejected. Approval at a previous fair does not guarantee compliance.

INTERSTATE HEALTH REQUIREMENTS FOR FAIR ANIMALS
This document is a supplement to the Animal Health Requirements published for animals exhibited at New York State county fairs and State Fair. Its purpose is to summarize the import requirements that must be met for livestock entering New York destined for fairs. Note that individual county fairs may require rabies vaccination in species not required by the state. Contact the specific fair for their requirements. Further assistance can be obtained by contacting the Division of Animal Industry (DAI) at 518-457-3502 or your State Veterinarian’s office.

CERTIFICATE OF VETERINARY INSPECTION (CVI)
A CVI is required for all animals moving interstate. Note that interstate CVI’s must be issued by an accredited veterinarian. The interstate CVI is valid for 30 days from the date of issuance. During the fair season, from July 1 through Labor Day, Interstate CVI’s can be used multiple times as long as the initial entrance to a fair in NY is within 30 days of issuance and the CVI is initialed by a state official. All documentation must accompany the animals. Animals not meeting the interstate and/or fair requirements will not be allowed on the grounds. Individual ID is required on all animals. Animals with incomplete or illegible ID will be rejected. Where rabies vaccination is required, the information can be included on the health certificate.

Horses
Horses 6 months of age or older must test negative for equine infectious anemia. The test must be conducted within 12 months of the day of entry. The horse must be clearly and completely identified. Rabies vaccination is required for all horses over 4 months of age and older on date of admission to the fair. Vaccination must be within the past 12 months

Cattle
Cattle must be identified by USDA approved official ear tag. Cattle from all states must be tested negative for BVD-PI with results and test date noted on the CVI. Cattle from the neighboring states of New England, New Jersey, Ohio and Pennsylvania can enter with CVI with no additional testing for importation required. For information on other states, please contact DAI at 518-457-3971. Vaccination for rabies is required for all cattle 4 months of age or older on date of admission to a fair. Vaccination must be within the past 12 months. Bovine respiratory disease complex vaccination is also required.

Sheep
Sheep can enter with CVI only. No tests are required. All sheep must be identified by a USDA approved tag, a USDA approved flock tattoo with individual ID, or electronic ID if the sheep is enrolled in the Scrapie Flock Certification Program. The veterinary statement concerning the flock inspection is required. Rabies vaccination is required for all sheep 4 months of age and older on date of admission to a fair. Vaccination must be with in the past 12 months unless a 3 year vaccination has been used.
Goats
Goats can enter with CVI only. No tests are required. The veterinary statement concerning the flock inspection is required. All goats must be identified by a USDA approved tag, legible registration tattoo (with registration papers), a USDA approved herd tattoo with individual ID, or electronic ID if enrolled in the Scrapie Flock Certification Program.

Swine
Swine can enter with CVI only. All swine must be identified by USDA approved official eartag.

Llamas/Alpacas/Guamacos/Vicunas (New World Camelids)
New world camelids attending a New York county or state fair must be accompanied by a CVI with animals individually identified. They must be test negative for BVD-PI with results noted on the CVI.

Deer (Cervidae)
Deer must meet the Federal interstate requirements for tuberculosis testing (be from an accredited or qualified herd). Brucellosis testing is required for deer greater than six months of age. All cervids must be identified by USDA approved official eartag. A written permit issued by the Division of Animal Industry is required in advance. For complete information, please contact the Division of Animal Industry at 518-457-3971.

Poultry
Out of state poultry must be accompanied by the NPIP flock certificate if the flock is NPIP certified. Otherwise a CVI is required. Poultry, with the exception of doves, pigeons and waterfowl, must test negative for pullorum within 30 days of importation if not from an NPIP Pullorum-Typhoid Clean Flock. Other birds must be accompanied by a CVI. For more information, contact DAI at 518-457-3971.

NOTES:
1. This project is worked in a ripple crochet pattern. The ripple pattern is easy to do, but it’s important to remember that you may need to work several rows before the ripple pattern becomes clear.
2. The ripple pattern consists of alternating peaks and valleys. Take care to keep the peaks and valleys of each row aligned. 2 dc are worked into the 2 dc at the top of each peak and 2 dc2tog are worked centered over valleys.
3. To change color, work last st of old color to last yarn over. Yarn over with new color and draw through all loops to complete st. Fasten off old color.

Maple Shortbread Cookies

½ c. unsalted butter, softened
¼ tsp. salt
2 Tbsp. granulated sugar
¼ c. maple sugar
½ tsp. maple flavor
1 c. + 2 Tbsp. King Arthur Unbleached All-Purpose flour

Directions:

In the bowl of an electric mixer, beat together the butter, salt, sugars and maple flavor.

Add the flour and mix just until the dough comes together. Wrap the dough in plastic and chill for 30 minutes. The dough can chill longer than 30 minutes, but if it does, allow about 15 minutes for it to warm a bit and soften before rolling it out.

Preheat the oven to 300°F. Lightly grease a baking sheet or line it with parchment.

On a lightly floured surface, roll the dough about 1/8” thick.

Use a cutter to cut the dough into shapes-leaves, stars, hearts, circles, your choice. Place the cookies on the prepared baking sheet. No larger than 3”.

Bake the cookies for 20-25 minutes, until they’re beginning to brown a bit. Remove them from the oven, and cool right on the pan.

Store cookies, well wrapped, at room temperature for several days. Freeze for longer storage.

2015 “Dutchess County’s
Best Pasta Salad” Contest

Although pasta salad is typically served cold, with meat, vegetables and either an oil/vinegar or mayonnaise based dressing, there is no reason it cannot be served warm. With fruits and/or other sweet ingredients, it can also be served as a dessert. Curiously, Italians do not typically consume cold pasta dishes, but every Asian culture seems to have at least one. The Chinese are famous for their spicy sesame noodles, and Japanese Soba with dipping sauce is a refreshing summertime treat. This year’s contest is once again a free-for-all, the only requirement being the use of some kind of pasta.

RULES
1. Our contest Wednesday, August 26th, at 6:00PM. Please try to arrive no later than 5:30PM.
2. PLEASE NOTE: OUR CONTEST IS OPEN TO AMATEUR COOKS ONLY!
3. Contestants will be given one-third of an eight foot table for display.
4. Judges will sample and score any one type of pasta salad per contestant.
5. Each pasta salad will be scored based on three different criteria—taste, appearance and creativity/originality. Scores will be determined on a 1 through 10 point basis, 10 being the best, the highest score winning.
6. **NEW THIS YEAR:** It will not be necessary to provide a printed recipe. You are welcome to if you would like to share your culinary secrets!

DEFINITIONS:

**TASTE:** Pasta salad may be served as a savory entrée, side dish or even dessert. Judges will be looking for bright, bold flavors and appropriate textures, deducting points for salads lacking in either quality.

**APPEARANCE:** An attractive presentation, vivid colors, contrast, garnishes or accompaniments will contribute to high scores, as will the use of appropriate props, attractive serving utensils and even costumes. Be careful not to present a dish that is either too dry or too runny.

**ORIGINALITY/CREATIVITY:** This category recognizes creative or unusual methods of preparation, use of ingredients, service or anything else that distinguishes one contestant’s entry as pleasantly and surprisingly different from the rest. Good Luck!

**AGAIN, PLEASE NOTE THAT THIS CONTEST IS NOT OPEN TO FOOD SERVICE PROFESSIONALS**

FARRIER CONTEST

Competition consists of several classes in each of three divisions, to accommodate all levels of skills.

Novice — Converting keg shoes for various purposes found in everyday shoeing.

Working Farrier — Handmade shoes also found in regular practice, corrective bar, traction, etc.

Open Division — Handmade shoes usually taken from American Farrier's Association National Competition.

Celebrity Shoemaking & Forging — Competitors come from our surrounding counties as well as all over New England, Pennsylvania, New Jersey, and Delaware. The last two years we have had two farriers from Canada participate in the competition.

Comparing shoemaking skills with other farriers is a fun and learning experience.

Rules are regular A.F.A. contest rules but are always discussed by the judge and contestants before competition begins.

Prize money is donated by the Dutchess County Agricultural Society, Inc., Trophies and ribbons are supplied by Empire State Farrier's Association. Prizes of tools, equipment and supplies are donated by dealers and manufacturers from throughout the Farrier industry.
