**Powers Great American Midways** is very excited about the 2016 Dutchess County Fair. It is our mission to provide the cleanest, safest most family friendly midway in America and has been for almost 40 years and counting.

What's new? What isn't? Brand new rides include The Sea Ray - a giant pirate ship that soars on a pendulum high above the midway. With thousands of colorful LED lights it is also the perfect backdrop for a selfie or to live out the pirate in all of us. New for the younger riders this year are the Jungle Jeeps-where the little ones can feel like they are driving a jeep in a circle on safari. Also new, are the Mega Motorcycles where they can Rev Up and get the feel of the open road as they spin. There is also going to be a new super-sized basketball game with all the bells and whistles to make you feel like a pro.

Delicious food also awaits you on The Power's Midway! We proudly produce the finest mobile food court in the country. Two brand new stands will feature fried dough, funnel cakes, gyros and chicken pitas. Yummm! It's so fun! See you at the 2016 Dutchess County Fair 2016 on the Powers Great American Midway.
