GAUGE:

15 sts + 17 rows = about 4 in. (10 cm) in Cable Pattern.

When you match the **gauge** in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch, **STITCH EXPLANATION:**

3/3 LC (3 over 3 left cross) Slip 3 sts to cable needle and hold in front, k3, then k3 from cable needle.

3/3 RC (3 over 3 right cross) Slip 3 sts to cable needle and hold in back, k3, then k3 from cable needle.

Notes:

1. Bag is worked in 4 pieces: Back, Front, and 2 Straps.
2. Back and Front are identical. Both are worked in a Cable Pattern with a casing at top edge. The casing is folded and seamed to create a sleeve for the dowels.
3. Straps are worked separately, then reinforced with grosgrain ribbon and sewn to Bag.
4. Cable Pattern can be worked by following written instructions or by reading the Chart. If working from Chart, read RS rows of chart from right to left and WS rows from left to right.
